**W** Sara & Grace,

I have lived a good life so far, but not a perfect one. I've made many mistakes, but I have learned from them. You will also make mistakes, and you will learn from them as well. But it's my hope that you will learn the lessons that I learned from my mistakes without having to make them yourself. That is why I've created this Wisdom Will for you.

I believe with absolute certainty that if you take these things to heart your life will be better. Your life will be easier. Your life will be more enjoyable. And you will be more successful. Everyone has heard the phrase "hindsight is 20/20", and everyone knows just how true it is. I am giving you the gift of hindsight. In some ways, this document can predict the future. Let me explain. If you don't take to heart certain things you read here I guarantee an outcome with very similar if not the exact same results. Not everything you read here is a mistake that I made. Some are mistakes I witnessed others making and to my credit, I had the good sense not to repeat them. I've made plenty of good decisions too, decisions worth repeating.

Some of the things you read here will be easy to do. Some will be difficult. Some you'll follow and some you probably won't. But I guarantee everything you read here can and will help you immensely if you let it. I believe there are hundreds of thousands of dollars worth of information written in these pages. It can be millions if you want it to be. So let's get to it.
